

More Savings. More Installs. New Stackable Heat Pump Incentives

Ready to help your customers save?

No customer paperwork required.

You get the discount when you make your purchase.

Pass the discount to the customer as a line item.

Incentive amounts by qualifying equipment type

Heat pump water heaters

when installed in existing single-family or two-to-four-unit homes

Equipment type	Subcategory	UEF	Customer incentive
Heat pump water heater1	240v	3.30	\$300/unit
	120v	2.20	
	Split system	2.20	

*Equipment must be ENERGY STAR certified. Limit 1 per qualifying address.

Air-source heat pumps

when installed in existing single-family or two-to-four-unit homes

Equipment type	Ducting type	HSPF2	SEER2	HCR @5°F	COP @5°F	Customer incentive
Air-source heat pumps <5.4 tons2	Ductless	8.5	15.2	70%	1.75	\$650/outdoor unit
	Ducted	8.1	15.2	70%	1.75	

*Equipment must meet the ENERGY STAR v6.1 cold climate criteria. Limit 2 per qualifying address.

Here's what we need from you to pass along the incentives:

- Residential customer name & installation address
- Residential customer contact information (phone # & email)
- Contractor contact information (name, phone # & email)
- Estimated installation date
- Pre-existing water or space heating fuel type (oil, gas, electric)
- Existing residential property only (single-family or 2-4 unit multi-family; no new construction)
- 1 per household for heat pump water heater and up to 2 per household for air-source heat pumps; product MUST BE a NEHPA QPL

No rebate without complete information

The Accelerator's stackable incentives include:

\$300

for ENERGY STAR®-certified heat pump water heaters

\$650

for ENERGY STAR v6.1 cold climate air-source heat pump HVAC equipment

The Accelerator's heat pump water heater incentive is limited to one per qualifying address. Limit two heat pump HVAC Accelerator incentives per qualifying address. Sales to multifamily buildings with five or more units are not eligible. New construction sales are not eligible for incentives. The Accelerator's incentives are funded by the U.S. Environmental Protection Agency and designed to be stacked with any available incentives provided through Energize CT, Mass Save, Mass CEC, NH Saves, Rhode Island Energy, and/or Clean Heat RI. Consult your local energy efficiency provider for specific details about those programs. The Accelerator's incentives are open to customers with any heating fuel type (gas, electric, oil, propane, wood, etc.) and any electricity provider (utility or municipal electric light plant) in participating states.

For more details about the New England Heat Pump Accelerator including future expansions to customer and equipment eligibility, please visit [NEHPA.org](https://www.nehpa.org) or contact Energy Solutions at [617-440-5467](tel:617-440-5467) or Acceleratormidstream@energy-solution.com
